SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

In re: § **Chapter 11**
§
FIELDWOOD ENERGY III LLC, et al., § **Case No. 20-33948 (MI)**
§
§ **(Jointly Administered)**
Post-Effective Date Debtors.¹ §

**DECLARATION OF WALTER BOWSER IN SUPPORT OF PLAN
ADMINISTRATOR'S MOTION TO EXPAND
OMNIBUS CLAIM OBJECTION PROCEDURES**

Pursuant to 28 U.S.C. § 1746, I, Walter Bowser, solely in my capacity as advisor to the Plan Administrator, hereby declare as follows:

1. I am a Director at Province, Inc., an industry-leading, nationally recognized consulting firm of senior business leaders specializing in financial advisory, corporate reorganization, and trustee-related services that enjoys an excellent reputation for services it has rendered in large and complex chapter 11 cases on behalf of debtors and creditors throughout the United States.

¹ The Post-Effective Date Debtors, along with the last four digits of each Post-Effective Date Debtor's federal tax identification number, as applicable, are: Fieldwood Energy III LLC (6778); Fieldwood Energy Offshore LLC (4494), Fieldwood Energy Inc. (4991), GOM Shelf LLC (8107), and FW GOM Pipeline, Inc. (8440). Fieldwood Energy III LLC, Fieldwood Energy Offshore LLC, and Fieldwood Energy Inc. are managed and operated by the Plan Administrator, whose primary mailing address is 16255 Ventura Blvd., Suite 440, Encino, CA, 91436, C/O of Province LLC. GOM Shelf LLC and FW GOM Pipeline, Inc. (collectively, the "Post-Effective Date FWE I Subsidiaries") are managed and operated by Jon Graham, as sole manager of each Post-Effective Date FWE I Subsidiary. The Debtors in the other nine pending chapter 11 cases (which continue to be jointly administered with the cases of the Post-Effective Date Debtors), each of which have either been dissolved or merged into other entities as of the Effective Date, consist of the following: Dynamic Offshore Resources NS, LLC (0158); Fieldwood Onshore LLC (3489); Fieldwood SD Offshore LLC (8786); Fieldwood Offshore LLC (2930); Bandon Oil and Gas GP, LLC (9172); Bandon Oil and Gas, LP (9266); Fieldwood Energy SP LLC (1971); Galveston Bay Pipeline LLC (5703); and Galveston Bay Processing LLC (0422).

2. Contemporaneously with the filing of this Declaration, the Plan Administrator filed the *Plan Administrator's Motion to Expand Omnibus Claim Objection Procedures* (the "Motion").² Except as otherwise specified herein, the facts set forth in this Declaration are based upon my personal knowledge or upon records kept in the ordinary course of the Debtors' business that were, as appropriate, reviewed by me or others under my supervision and direction.

3. Since his appointment, the Plan Administrator and his advisors have been working to review and reconcile the administrative, secured, priority, and general unsecured claims filed against the Debtors' estates. Among these claims are approximately ninety-three claims filed by Interest Owners. Given that the Interest Owner Claims make up a material number of the overall number of claims filed against the Debtors, the Plan Administrator has devoted significant time and resources reviewing, understanding, and reconciling the Interest Owner Claims. In addition, the Interest Owner Claims frequently contain incomplete information and little to no supporting documentation, making reviewing and reconciling such claims particularly challenging.

4. However, using the Debtors' historical accounting and operational data as maintained by QuarterNorth Energy, LLC ("QNE"), as well as information published by state and federal agencies, the Plan Administrator has been able to reconcile the Interest Owner Claims and the bases and validity thereof. In particular, at my direction, searches were conducted regarding each individual Interest Owner names in reports generated by the Debtors' accounting database, "OG SYS," in order to identify the owner or vendor numbers of each Interest Owner. An owner or vendor number is a unique identification number assigned by the Debtors to each of the Debtors' Interest Owner. If an Interest Owner holds an interest in a prospect or other non-producing property, the Interest Owner is assigned a "vendor number." Interest Owners for developed or

² Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Motion.

commercially producing properties are assigned an “owner number.” I understand that determining each of the Interest Owners’ respective owner or vendor numbers is crucial to accessing operational and payment information which is indexed by, *inter alia*, owner and vendor number. Each Interest Owner’s owner or vendor number is identified in **Schedule 1 and 2** to the Motion.

5. Once the owner or vendor number for each Interest Owner was identified, I was able to determine from reports generated by OG SYS (i) what interest each Interest Owner held, (ii) each of the properties in which they hold/held an interest, (iii) the historical hydrocarbon production and costs attributable to each such property, and (iv) the historical payments made to the Interest Owner by the Debtors, including whether any amounts had accrued but remained unpaid. I understand that this data formed the basis of the accounting and revenue statements that were periodically provided to Interest Owners from producing properties. In addition, this information also corresponds with the Debtors’ exploration and development choices with respect to undeveloped prospect properties for potential future development, including the Debtors’ determination of whether to continue to pay periodic rental payments (and therefore maintain the underlying Lease) for such prospect properties.

6. After identifying each of the properties in which the Interest Owners held an interest, I reviewed the Debtors’ ownership and disposition data and files regarding each such property, including information regarding whether the Debtors’ developed the underlying property and whether the Debtors sold or otherwise transferred the underling Leases. Finally, at my direction such information was compared to information published by state and federal agencies where available, on a property by property basis, in order to verify the Debtors’ ownership and production data. With respect to federal offshore properties, the Debtors’ ownership and

production information was compared to corresponding information periodically published by the Bureau of Ocean Energy Management and the Bureau of Safety and Environmental Enforcement, as aggregated in the proprietary “OWL 7 Database” maintained by Lexco and subscribed to by QNE. With respect to onshore properties, the Debtors’ ownership and production information was compared to ownership and production information published by the Texas Railroad Commission and Louisiana Department of Natural Resources, where such information is available.³ Examples of the reporting published by the Texas and Louisiana regulatory agencies are attached hereto as **Exhibit B-1**. By verifying the Debtors’ information, I was able to verify the production and ownership history of each property underlying the Interest Owner Claims.

7. As a result of the foregoing diligence process, I was able to determine that each Transferred Lease Claim was sold or otherwise transferred to another operator pre-petition, who then became liable for future amounts under the transferred Leases. I also reviewed applicable sale and other transfer documents for the properties underlying the Transferred Lease Claims. In this regard, **Schedule 1** clearly identifies each property, the date of transfer of the applicable Lease, and the subsequent operator. In addition, after reviewing the Debtors’ production and payment information maintained by QNE with respect to the Transferred Lease Claims, as verified by the government regulatory operational and ownership data, I examined reports generated by OG SYS and determined that all amounts due to each Interest Owner by the Debtors for the periods prior to the transfer of the underlying Lease were paid. The date and amount of final payment is also included in **Schedule 1**.

³ Due to the nature of the reporting requirements of the Debtors and other operators, no governmental ownership or production data was available for review with respect to non-producing or undeveloped prospect properties.

8. With respect to the Terminated Lease Claims, I confirmed that the Debtors intentionally allowed the Leases with respect to the properties underling the Terminated Lease Claims to lapse where (a) there was not commercial production or (b) there was no longer a desire to develop such properties. For example, I learned from one of the Debtors former employees (now a QNE employee) that certain of the Interest Owners leased acreage to the Debtors in Iberia Parish, Louisiana generally referred to by the Debtors as the “Section 20” or “Catapult” property. The Catapult property was a prospect property that was never drilled or developed by the Debtors. I understand that in order to cut costs, beginning in the spring of 2019, the Debtors determined to cease making rental payments for the Leased Catapult properties in order to allow the underlying Leases to lapse under their own terms.

9. In addition to determining that the Leases had terminated, I was able to determine that, after reviewing the Debtors’ production and payment information maintained by QNE and verified by the government regulatory operational and ownership data, all amounts due to each Interest Owner with respect to the Terminated Lease Claims were paid though the termination date of such Lease. Accordingly, Schedule 2 reflects, on an Interest Owner by Interest Owner basis, (i) the properties attributable to each Interest Owner, (ii) the dates the applicable Lease terminated, and (iii) the date and amount of final payment to the Interest Owner.

10. Based on this substantial level of diligence, I was able to determine that the Post-Effective Date Debtors’ estates are not liable to the Interest Owners on account of the Transferred Lease Claims or the Terminated Lease Claims.

11. I believe that the Plan Administrator should be authorized to file omnibus claim objection on the Expanded Grounds. I believe that authorizing the filing of omnibus claim objections based upon the expanded grounds will provide the benefit of efficient administration of

the Post-Effective Date Debtors' estates without any downside for any party. As detailed above, the Plan Administrator and his professionals have gone to great lengths to evaluate and conduct diligence with respect to the Interest Owner Claims to identify appropriate objections. These diligence efforts are reflected in the substantial detailed factual allegations incorporated into **Schedule 1 and 2.** Absent authorizing the filing of omnibus objections based on the Expanded Grounds, I believe that the Plan Administrator will be forced to file individualized claim objections at exponentially greater costs, without any commensurate benefit to any party.

12. Accordingly, I believe that the Bankruptcy Court should authorize the Plan Administrator to file omnibus claim objections based upon the Expanded Grounds, subject to the myriad of safeguards set forth the Bankruptcy Rules, Local Rules, Complex Case Guidelines, and the Omnibus Objection Procedures.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct to the best of my knowledge and belief.

Dated: July 26, 2022
